DSV XPress

– calculation of weight and size

Maximum weight of each parcel 70 kg.

Maximum dimensions may vary depending on origin/destination, for more detailed information, please check with xpress.hel@fi.dsv.com.

Volume/weight ratio: 1cbm = 250kg

The calculation of price is based on volume weight if it exceeds the actual weight of your shipment.

Larger packages are considered DSV XPress Special Services shipments, handled on request and quoted case-by-case.
