

# Holiday Traffic Christmas and New Year 2019/2020

## To our customers with road transport

Please find information below about this year's holiday traffic regarding our road transport. Here you will find the general last loading dates with arrival before Christmas for international transport to or from Gateway\*. For domestic transport, the last loading dates are loading at customer. Timetables below can be adjusted.

\* Gateway = terminal where the goods are loaded on the vehicle that takes the goods across the border. Contact your DSV office for information about a specific Gateway.

Due to the challenges on the market regarding capacity and driver shortage, we are concerned that the holiday traffic will be challenging due to high demand for available capacity. Dates showing normal loading below may therefore be even more affected before our traffic goes back to normal. Please contact the resp. traffic department for exact time estimates regarding specific addresses and departures.

## Production domestic - Sweden

### Groupage and Part load

DSV will operate holiday traffic during week 52-2019 to week 4-2020 and normal lead times may be affected. Of course, our ambition is to meet our customers needs as far as possible.

On 24-26/12 and 31/12 2019 and 1/1 and 6/1 2020, all terminals are closed. On other days between week 52 and week 4 we have daily departures for part loads and groupage from all terminals, but with adapted capacity. Therefore, please plan your transport with extra foresight for this year's Christmas and New Year holidays.

## Nordic Countries

### Comments:

#### Netherlands, Belgium, Luxembourg, France, Spain, Germany and Portugal

Later dates may be possible as far as foreign trucks in export direction and Swedish trucks in import direction permit. Loading between Christmas and New Year with arrival after New Year and Twelfth Night can be arranged subject to availability of trucks. Please contact the traffic department at DSV with reference to information above. There may be an extra charge for transport during these periods, which will be agreed from case to case.

#### Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary

We know by experience from previous years that there has been a big shortage in capacity during weeks 51-02. There may be an extra charge for transport during these periods, which will be agreed from case to case. Loading between Christmas and New Year with arrival after New Year and Twelfth Night can be arranged subject to capacity.

## Holiday Traffic Christmas and New Year 2019/2020

### UK/Ireland

Week 51 we will be able to offer you co-loading of groupage/part loads on Tuesday Dec 17 and Friday Dec 20 (subject to demand and with delivery after New Year). Very limited traffic Week 52 and 01 due to Christmas holidays and reduced capacity on the ferries. Delivery can only be arranged after special agreement. We also expect limited truck capacity week 01 up to and including week 04 with extended lead times as a result of this limitations.

### Questions and contacts

For more detailed information about transport to/from each market, please contact your ordinary contact person or the traffic department. Contact information is found on our home page: [www.se.dsv.com](http://www.se.dsv.com).

### DSV Road Express

In case you have a transport that cannot wait, do not hesitate to contact your nearest DSV-office and ask for DSV Road Express – the service that never stands still. Do you have an urgent transport? Call our emergency No: **+46 (0) 20 - 42 20 25**. DSV Road Express is available 24 hours a day, 365 days a year.

Best regards

DSV Road AB
